#### Yellow gold name necklace by Kendijewlz.com

We all remember when our love affairs with name necklaces began — when Carrie Bradshaw hit our screen, that's when! The cute little pendants were worn by budding fashionistas worldwide and an array of variations followed.

Kendijewlz.com is the perfect place to go for unique personalised jewellery, magically spelling anything you wish, from names to cheeky slogans and heart-warming messages. We love this first name offering, complete with love heart sentimentality — the perfect gift for someone special.

Yellow gold name necklace, £98. Buy online now from [kendijewlz.com](http://kendijewlz.com)
